TAPERS

L-Clip 200

The L-Clip 200 applicator securely applies 2" width of many types of packaging tape. The L-Clip 200 was designed with the operator in mind and is perfect for sealing all types of boxes and cartons. The operator places the product to be sealed onto the table top and pushes the box forward against the activation plates. This activates the machine and the desired length of tape is secured onto the leading edge of the box - both side and bottom.

Standard Features:

- Electric over pneumatic
- Heavy duty work-stand with adjustable height
- 2 inch tape head
- Handles boxes as narrow as 3-1/4" wide
- Compatible with many types of tape
- Standard 2-1/2" x 2-1/2" tape legs*
- Rear mounted casters

Options:

- E-Stop to drop power and air
- Drop-in table mountable 14" x 20"
- Side Guide with optional flap closer
- Ball table available for heavy boxes
- Lag point adjustable legs
- Stainless Steel Frame
- In-line air filter
- Additional machine guarding

Specifications:

- Machine height on stand 31" - 36"
- Work station size - 21" wide x 27" long
- Machine height above work station 4"
- Tape width 2"
- 120 volt electric and cleaned compressed air - 90 PSI

*Requests for non-standard parts are always accepted
